KNOWLEDGE

This training represents the highest level of concentration required of all participants.

This training guarantees at the end that you have learned a lot and have completed the Krav Maga Maor Instructor Course. You have made a big step towards becoming Instructor.

Amnon Maor is a very critical instructor. This makes him a professional teacher. Exactly this professionalism distinguishes his teaching and the associated high standard.

To become good in this system also means to stay on the ball after the training. It is expected that a participant continues to train intensively.

Since further advanced training with Amnon Maor follows, every participant should be prepared to attend as many possible seminars for their own further training.

We offer in November his well known education KM Self-Defense system for Women and Instructors called 7 level Defense. Check the website for exact dates.
